### Address

Dear ...

On behalf of the Project Team, it is my pleasure to invite you or a delegate, to attend the Mujer Sana, Comunidad Sana - Healthy Women, Healthy Communities Health Festival in an exciting community event.

Mujer Sana, Comunidad Sana – Healthy Women, Healthy Communities is a demonstration project that aims to address gaps and barriers limiting equitable access to effective Breast and Cervical cancer screening information and services among women of diverse cultures, using interventions at the individual, organizational and community levels. The project involves an integrated partnership between the Latin American Women Support Organization – LAZO; Gentium Consulting – a community-based research group, Centretown Community Health Centre and the Community Health Research Unit – University of Ottawa (CHRU).

This activity is part of our Outreach and Health Promotion component, which is designed to empower women to gain control of their own health. During this event our Lay Health Promoters will be available to discuss the many issues involved in the effort to educate women about breast and cervical cancer and to access services in our community.

The Health Festival will be held on March 23rd from 1 to 4pm at:

❖ **Centretown Community Health Centre**  
**located in 420 Cooper St., Ottawa**

Refreshments will be served and children are also welcome to join us with specially prepared activities for them! Please call Carolina Bórquez or myself at 233.4443, ext.2222/2237 to confirm your attendance or if you need more information.

This event has been partially funded by the Canadian Breast Cancer Network

Jacqueline Bittencourt
